

Md Mujib Ullah

## Desire

Writing your name on the paper to be your beloved.

After the pause, in a new beginning  
You could make me delightful  
With heat and water.

You are still able to trigger your weapons,  
By kissing my lips, no worries.

When you will read me and my message,  
Give an electric response,  
Warm me as like a room heater does  
In the extreme foggy winter.
